CREATIVE BRIEF

PLASTI-
SCENE

To celebrate the release of LWLies 40 *The Pirates!* issue, we set a Creative Brief inspired by Aardman Animations' unique stop-motion style, asking you to recreate an iconic film scene out of modelling clay.

The response was overwhelming, with over 60 of you submitting lovingly crafted Plasti-scenes ranging from the slightly surreal to the truly sublime.

We'll be announcing the overall winner and two runners-up, as judged by Aardman co-founder and *Pirates!* director Peter Lord, early next week, but for now we've put together this special digital mini-mag to show off all of your ace creations.
